Fire Safety Information For Tenants

Tenant Information Sheet: Fire Safety

Prevention

- It is safer not to smoke; but anyone who does should try to smoke outside and always make sure cigarettes are put out properly.
- Never smoke in bed, or anywhere else, if there's a chance of falling asleep.
- Use fire-safe ashtrays and fire-retardant bedding, nightwear and throws.
- Ensure paraffin based emollient creams are replaced with non-flammable alternatives.
- Candles, tea lights and incense burners should only be placed in stable, heat-resistant holders.
- Keep these items or any other type of naked flame well away from curtains, furniture and clothes.
- Sit at least one metre away from heaters and keep them well away from anything that can catch alight.
- Don't overload electrical sockets.
- Close all doors at night as this helps to prevent fire and smoke spreading.
- Switch off and unplug electrical.

Escape

- Make sure escape routes are kept clear of anything that may slow down or block exit routes.
- Ensure security gates can be easily opened from the inside without the need for a key. Keep door and window keys where everyone can find them.
- Mobility aids and any methods of calling for help should always be kept close to hand (e.g. mobile phone, link alarm/pendant).
